Experience

August 2023 - Present
Web Developer
Redmil Business Mall - Noida, U.P.

- Developed and maintained visually appealing websites for our clients, focusing on both design quality and functional performance.
- Ensured that all the websites developed were fully responsive across various devices.
- Built dynamic websites and web applications with JavaScript and React.js.
- Collaborated with a team of developers on the company's administrative system.

Projects

MERN Todo App | *(Link)*

- User Authentication: Implemented secure login and signup functionality using JWT and Bcrypt.
- Task Management: Allowed users to create, edit, delete, and complete tasks.
- Error Handling: Integrated robust error handling to provide descriptive feedback for invalid inputs, authentication failures, and server errors.
- State Management: Local state management using context API that keeps UI in Sync with the Database.

Tech Stacks : MongoDB, Express, React JS, Node JS, JWT.

Youtube Clone | *(Link)*

Youtube Clone web app built using React JS and Material UI. User can watch videos without pesky ads.
